INTRODUCTION

Thank you for considering ExternalWrap for your home energy upgrade. We are pleased to present this estimate for External Wall Insulation (EWI) at your property.

Our team is SEAI-registered and NSAI-certified, delivering fully grant-eligible insulation solutions that reduce energy costs and improve the comfort and value of your home.

PROJECT OVERVIEW

Supply and installation of a high-performance 100mm external wall insulation system finished with a Siloxane render system (1.5mm texture) to achieve a wall U-Value of 0.27 W/m²K.

Render colour: Cobblelock, Knock na Rí.
Window oversills: Natural Granite.

Additional feature treatments: Dash Finish (front only).

SCOPE OF WORKS — EXTERNAL WALL INSULATION (EWI)

EWI system to create a complete insulation envelope achieving a wall U-Value of **0.27 W/m²K**.
Property: **56 Grove Park Avenue, Dublin 11, D11 CD36**

AREAS TO INSULATE

- All 4 sides of property

STANDARD SPECIFICATION

- Insulation to finish at eaves level
- Extruded X.P.S. insulation used below D.P.C./plinth level
- Minimum 20mm insulation to all window and door reveals
- Fit composite concrete oversills
- Prepare substrate — remove existing renders, reveals and cill fronts
- Remove, extend and refit all rainwater and wastewater pipes where possible
- Mechanically and adhesively attach insulation boards to prepared substrate
- Embed alkali-resistant fibre mesh using siloxane cement basecoat (2 coats)
- Apply siloxane primer/sealer to fully dried basecoat; finish with siloxane render
- Scaffolding and waste disposal INCLUDED in price

ALSO INCLUDED

- 200mm Rockwool fire barrier at party walls
- Granite effect oversills
- Vent cores in all rooms
- Brick slips to feature wall
- 200mm insulation to gable
- Scaffolding & waste disposal included

NOT INCLUDED — CLIENT TO ARRANGE

- BER cert (required to claim SEAI grant)
- ESB cable relocation
- Gas pipe relocation
- Satellite dish removal/refit
- Alarm system relocation
- Garden clearance for access
